

Wisconsin Longitudinal Study:
1975 Company Characteristics Data

This data file contains company characteristics for current or last job that the original sample member held in the five years preceding and including 1975. This file only contains records for those who responded to the 1975 survey and who had a job sometime up to and including five years before the 1975 survey. n= 7801

Complete details for construction of these variables can be found in APPENDIX JJ - CORS 307 and 335. The descriptions of variables in this document end with an item in parenthesis. This item is a key to the location of the original data in Cor 335. If the item begins with "C", then the original can be found on page 2 of Cor335 in the columns indicated by the number following "C". If the item begins with "R", the original data is documented on pages 24-42 of Cor335. The number after "R" indicates the record number and the number after "C" indicates the beginning column in that record.

Column	Variable Name	Variable Description	Frequencies	
			Men	Women
1-6	IDPUB	Respondent's identification number. Public data release (replacing IDUSER for merging company data with various waves of WLS public data).		
	001001-434003	Cols. 31-33, random number assigned to each high school. Cols. 34-36, random number assigned to each student within each school. Users are NOT provided with a key to identify high schools or students.	4321	3480
7-12	CPCODE	Company code number. The first two digits of the company code number range from 01(A) to 26 (Z) and represent the first letter of the company name. (C2401-C2406)		
	010006-260023	Company code	4303	3418
	777777	Refusal	18	62

Note: Not available on the public data file.

13-15	CPSTATE	State in which company is located. (C2478-C2480)
