

## **Change Notice #49 - Data Version 15.2 - April 2025**

### New/Updated Measures

- **ILIAD Time 2 Long interview data (R08)**

Our second round of ILIAD, and our eighth round of the WLS, has new data from the long interview for 858 graduate participants and 330 sibling participants. The newly released data includes consensus research diagnosis data.

- **ILIAD Dementia Questionnaire Proxy data (R08)**

We are releasing Proxy data for an additional 483 graduate cases and 167 sibling cases. The newly released data includes proxy research diagnosis.

- **Cumulative dementia status measure (SD)**

The variable will be updated every time new data becomes available.
